

**Safety is our collective responsibility, so remember to
keep your head up and Watch for Dawgs.**

.....

Park micro-mobility vehicles outside.

Ride where you can be seen,
not on sidewalks.

As a community, we need to look out for each other.

Essentials for Micro-Mobility Smart Travel

Follow the rules of the road. This includes stopping for red lights and stop signs and giving the right of way to pedestrians in crosswalks.

Wear a helmet. Research shows that wearing a helmet makes a significant difference in the event of an accident.

When accessing sidewalks or crosswalks, users must walk with their e-wheeled vehicles.

Starting in Fall 2025, battery-powered micro-mobility vehicles such as e-scooters, e-bikes and “one wheels” will not be allowed inside any University buildings, including housing facilities.

Also beginning in the Fall Semester, the University will enact policies that designate “dismount areas” for wheeled vehicles on sidewalks. In these areas, there will be enhanced enforcement and penalties for utilizing a wheeled vehicle on a sidewalk surface.
